USE OF BADER FOR FIELDCRAFT APPLICATIONS

Reference:

A. Letter from Sqn Ldr B Coats WBW/143/Trg – Use of Bader for AT Applications.

1. Further Reference A, RHQ has now given its approval for BADER to be used for Fieldcraft Training (FT) Applications provided you are not using weapons for live or dry training use. If this is the case, the current hardcopy paper application and authorities will continue to apply.
2. The process for an FT Application is the same as that specified in Ref A. Ensure you put Wing as one of the participating Units otherwise I can't see the application to sign this off.
3. You should submit your EASP, RA, Camp Admin Order, Map etc when you get to the "attachments" page within the process.
4. When you submit your FT Application please e-mail me at the address above so I know you have an application in the system.
5. As per Ref A, the start date for the electronic submission for FT Applications will be the 31 Mar 11.

D Martin Sqn Ldr
WSO for FT Tr'g.
