### **BTEC INTERMEDIATE CERTIFICATE IN AVIATION STUDIES 2010.**

Since September 2010 when changes were introduced and "Master Cadet" effectively replaced Staff Cadet we have continued to apply for the awards. I have not been notified of any changes to that at present.

Any BTEC qualification is well recognised within commerce and industry therefore it's worthwhile registering your Cadets for the award.

Currently the system still remains in place that when Cadets pass their exam they will automatically be registered with Edexcel from information forwarded to me via WHQ. I will however, require copies of the 3521A's a copy of the BTEC 1<sup>st</sup> Class form/or evidence of the new First Class training document from Junior Cadet Level. This with the 3521A will form part of a pack for audit purposes by Edexcel.

Those Cadets not in receipt of a certificate who passed their Exam prior to January 2008 may still apply however, will have to pay the registration fee of £35.00.

During 2010 **48 Cadets representing 25 Squadron's** (slight decrease from 2009) have gained the award.
